## OF ONE MIND.

If the walk out of railroad workers will help settle the big question of the high cost of living everybody but the profiteers will be for it. It is a little hard to understand just how the movement will bring about the desired results but perhaps the purpose is to impress congress that the situation is acute and to give a warning note of what may happen unless immediate and sincere steps are taken to bring about the desired conditions.

The Calhoun county telephone companies recently held a conference to adopt a rule for putting a time limit on social conversation by telephone. Well, what are telephones for, anyhow, especially in a country without a railroad? At least that is what the women subscribers of the telephone companies are asking.

Walters in big city hotels claim that since prohibition has come their times are fewer and smaller. It must be that those who "look upon the wine when it is red" get in more generous mood than those who quaff buttermilk or grape juice highballs. Anyhow, the association of walters has proposed that slips be attached to the checks of cafe patrons making the tip of 10 per cent a regular requirement. This is not likely to prove popular with either the cafe owners or the patrons.

## WILL HELP SOME.

Talking about the release of surplus meats by the war department does not tell half the story. Secretary Baker has presented a list showing at least 500,000,000 pounds of canned meats, vegetables, fruits, flour and similar food supplies. The release of such a vast amount will certainly have its effect on the cost of commodities. At the same time, this relief will be only temporary unless

the right steps are taken to get at the real facts and to find out what is causing the high costs, and then remedy the difficulty.  
There is no use denying that the high living cost is a world problem, for the figures prove that the advances in the U. S. have been less than in the other countries of the world except in Argentina and India. A world condition cannot be relieved simply by the action of one nation.

The telegram of sympathy sent by the Alabama legislature to the city of Chicago regretting the riots there was far more cutting than the sarcastic telegram East St. Louis sent to Washington a few weeks ago when riots prevailed at the national capital.

## SOME STRONG CANDIDATES.

In Springfield Logan H. Ay, James H. Paddock, Clinton L. Conkling and A. D. Stevens are candidates for membership in the constitutional convention. Even tho this county has not been accorded justice in this or other candidacies in district affairs, it must be acknowledged that the Sangamon county candidates are strong, well equipped men. If the majority of those who hold membership in the constitutional convention are of the same type the program worked out will be one safe for the people to approve at the election later on.

It has been well said that the people as a whole do not seem to realize the importance of the constitutional convention, or to understand that their interests must be safely guarded at that time. True, every provision of the new constitution must be voted upon but it is highly important that many fundamental matters have deep study before the constitution is outlined for the approval of the people.

## MILLIONS ARE UNDERFED

A statement was recently published, coming indirectly from a public health nurse in Jacksonville, that there are families in Jacksonville today where the children regularly have but one meal a day. Well known citizens whose attention was attracted by this statement, wish the facts known and are ready to give relief if the situation suggested really exists.

No matter what local conditions are, it is certainly true that there are millions of children in the U. S. who are not getting enough to eat. The children's bureau of the U. S. department of labor says that these children number from 3,000,000 to 6,000,000.

"These are the children whom parents and teachers often speak of as 'delicate' or 'ailing' or 'lazy' or just 'plain ornerly'; but Miss Lydia Roberts, the dietitian, who has just written for the Children's Bureau of the U. S. Department of Labor a pamphlet called 'What is Malnutrition?' says they are hungry, or, in technical phrase, 'malnourished.' Some of these children literally do not get enough to eat; more, perhaps, do not get enough of the right sort of food; some are unable, as a result of physical defect, properly to assimilate what they eat.

According to Dr. Josephine Baker, more than one-fifth of the school children of New York City are undernourished. The percentage for the entire United States is even higher. Dr. Thomas Wood places it at from 15 to 25 per cent. Since this takes no count of the malnourished children under school age, in the "neglected period" between the ages of two and seven, when malnutrition usually has its beginning, from three to six million hungry American children is probably a conservative estimate.

Many of these children are getting hungry, says Miss Roberts, because their parents can not afford to buy a sufficient amount of suitable, nourishing food. Thousands of American families are today living on an income which does not permit of an adequate diet. But poverty is not the sole cause of malnutrition. Many mothers do not know how to spend their money to get the best return in food value, or how to plan healthful, nourishing meals for their families.

Rippling Rhymes  
By Walt Mason

Dry as Dust.  
The country's dry; some gin and rye in alleys may be peddled.

but prison waits the foolish skates who with such trade have meddled. The thirsty gink who seeks a drink of soul destroying bitters, must cast aside all decent pride and herd with low down citters. The country's dry and so am I, but I'm a fan for water; when heated up I want a cup that doesn't make me hotter. The foaming beer, all amber clear, that bears such luring titles, piles useless fat on waist and stat, and superheats men's vitals. The sparkling wine whose bubbles shine like dew upon the clover, heats up one's veins and cooks his brains, and leaves a fierce hang-over. I drink from pools, for water cools my works, by summer heated; I don't regret the era wet, when men each other treated. I drink from pumps and have to dumps when rising in the morning; no stomach throes, and my red nose is not a horrid warning. I drink from brooks whose bends and crooks beset the smiling valleys; I have no use for serpent juice dispensed in dirty alleys.

## HOME COMING AT

Miss Alice M. Flour returned to Jacksonville last night after a pleasant visit with friends and relatives in Springfield Friday and Saturday.

ALICE LOUIS SCHRODE

"Say! What's the matter with you?" coming from Alice Louis Schrode while she is imitating a bow-legged boy and "Seen' Things" at the Chautauqua wins everybody under the big tent. This little actress is a remarkable reader and entertainer who also sings, dances and whistles. Her whistling imitations set her audiences wild and her impersonations are so good that it seems impossible that one so young could do them. This little winner delights her audience from her entrance upon the platform through her response to the last encore. Jacksonville Chautauqua Friday, Aug. 22 to Sun. Aug. 31.

SAMUEL GOLDWYN presents the handsome matinee hero

TOM MOORE

With Seena Owen in the Saturday Evening Post Story by Basil King

"The City of Comrades"

He was down and out, and he was sauntering along life's high-way with distrust in his eyes and hatred in his heart. She was a beautiful girl, petted, pampered, and bored stiff by the monotonous Johnnies who sported five dollar four-in-hands. Fate throws them together. SHE saw love light in his eyes. He saw visions of what might have been written between the dimples of her rosy cheek. Then he pulled himself together—and Romance and Adventure ended in a great Happiness.

## TO MEMBERS OF THE FARMERS CLUB

In a letter to members of the Farmers Club the past week the County Agent had the following:

**Farm Surveys.**  
A farm survey consists in making a careful study of a farm, usually including an outline map of the fields, types of soil found, soil treatment, crops grown, livestock kept, and general plan of farm followed. We have the blanks for this purpose. If you desire such a survey let us know. This service is free to members.

**Poultry Culling.**  
August and September are the months to cull flocks. We should like to arrange for a demonstration in every community. As a whole, we prefer to work with purebred flocks. If you are interested, help us to arrange for such a demonstration in your community at an early date.

**Limestone.**  
Harry J. Rice of Arnold and Frank Strawn of the Mendon avenue report very satisfactory stands of clover on land that has received limestone while the unlimed land has either a poor stand or no stand at all. We are arranging for J. E. Readhimer of the College of Agriculture to be with us for a couple of days to explain the merits of limestone. In the meantime if you want your soil tested, let us know.

**Phosphate.**  
L. A. Reed, E. R. Hembrough, H. F. Garfield David Stansfield, Harold P. Joy, A. D. Gibson, and C. L. Hawker have used rock phosphate the past year. If you wish to make a trial of phosphate and do not care for a carload, arrange with several of your neighbors to buy a carload. Any of our elevators will weigh it for you at a nominal charge.

The shirt-hold does the work. It holds the shirt in place. Introduced to Jacksonville by FRANK BYRNS' Hat Store.

## Funerals

**Reece.**  
Funeral services for John M. Reece were held from the Reynolds chapel at 12:30 o'clock Saturday afternoon in charge of the Rev. G. W. Randle, pastor of Brooklyn church. Miss Alice Mathis gave suitable organ selections during the service.  
Burial was in Diamond Grove cemetery, the bearers being John Brown, J. M. Sumners, J. E. Rawlings, A. K. Grimley, G. H. Fanning and Will M. Reece.

**McCool.**  
Funeral services for Miss Mary McCool were held from the Reynolds chapel at 2:30 o'clock Saturday afternoon in charge of the Rev. G. W. Randle, pastor of Brooklyn church. There was a large gathering of relatives and friends to pay last tribute to the memory of the deceased.  
Miss Alice Mathis presided at the organ and furnished suitable selections throughout the service. The flowers were cared for by Miss May Lambert.  
Burial was in Jacksonville cemetery the bearers being W. H. Self, Charles Glossop, John Hoover, W. C. Green and Lycurgus Goheen.

**Wahrenbrook.**  
Funeral services for Henry Augustus Wahrenbrook were held from the residence, 620 South Kosciuszko street at 10 o'clock Saturday morning in charge of the Rev. G. W. Randle, pastor of Brooklyn church.  
The flowers were cared for by Mrs. Fierke, Bessie Wheeler and Bessie Tobin.  
Burial was in Diamond Grove cemetery, the bearers being, Fred and William German, Ross Wheeler, Bertram Ehrigott, Herman and William Brune.

**LADIES' GARMENTS AND MILLINERY FOR SUMMER WEAR GREATLY REDUCED THIS WEEK AT HERMAN'S.**

Dr. J. G. Ames is again in this city after a number of weeks spent with his family at Old Mission. Dr. Ames will now continue his work as district director for War Savings Certificate sales.

## COMBINATIONS OF PEKIN HERE TODAY

Fast Team from Pekin Will Play Indiana—Harry Clark Will Not Be in Lineup—Beerup Probably Will do the Receiving.

The Pekin Combinations will be the Indee opponents this afternoon at Indee park. The team comes in place of Virden. That team demanded \$80 after agreeing to come for 60 and a Manager Smith cancelled the game.  
It is said that Clark has signed with a team in another city and will not be in the local lineup this afternoon. Rumor has it that Clark has received an offer which is more than the local management feels it can pay.

While Manager Smith has not given out the name of the new catcher it is thought to be Beerup of Alexander who caught for the Indees last year. It is expected that McManus of Palmyra will also be in the lineup of the Indees, appearing at third base.  
Alfred Patrick, the old time Central Association and Three Eye League pitcher, has been working out for some time and will be in uniform Sunday. Pat thinks his arm is good again and probably will have a chance to show before local fans. If Patrick's arm is only half good he can beat most of the teams that have played here this season.

The teams will lineup as follows:

Combinations—Vedel, cf; Clay, ss; Bennett, 1b; Callahan, c; Ballsinger, 2b; Dirksen, rf; Beerup, lf; Petri, 3b; Doren, Claude, p.  
Indees—McManus, Mahan, 3b; Briggs, ss; Ruble, 2b; Simms, 1b; Christopher, c or lf; Riggs, cf; Cooney, rf; Beerup, c or lf; Padgett, White, p.

Franklin picnic-chicken fry—Aug. 7th.

## DEATHS

**Campbell.**  
Alvin Eugene Campbell died at the family home, 110 Spaulding Place at 12:45 o'clock Saturday afternoon after an illness of four months.

Deceased was born on a farm two miles south of Waverly June 22, 1892. He resided there until 1917 when the family moved to this city.

Besides his parents he is survived by one brother, Albert L. of Lowder, and one sister, Miss Pearl, at home. One brother, Warren Russell, preceded him in death.

Funeral services will be held Monday afternoon at 2:30 o'clock. Burial will be in Waverly cemetery.

**McKavitt.**  
Mrs. Mary McKavitt, widow of the late Arthur McKavitt, passed away at the residence of her sister Mrs. J. J. Clancy, 428 South Clay avenue, at 11 o'clock Saturday morning.

Deceased was born in St. Louis, Mo., and came to this city when five years of age, where she has since resided.

She is survived by the following children, Mrs. Katherine Anthony and Mrs. A. Neible of Terre Haute, Indiana; Archie McKavitt of Peoria and Edward McKavitt, of this city. All of whom were with her when she died. She also leaves two sisters, Mrs. J. J. Clancy of this city, and Mrs. Joel Fernandez of Beardstown.

Mrs. McKavitt was a devout Catholic, a faithful member of the Church of Our Savior, and was loved by all who knew her.

The remains were removed to the undertaking parlors of J. H. O'Donnell and prepared for burial. Funeral services will be held from the Church of Our Savior at 10 o'clock Monday morning with burial in Calvary cemetery.

Gloria Swanson and Elliott Dexter in

IN CECIL B. D'MILLES PRODUCTION

"For Better, For Worse"

An Artcraft Picture

Vanity, jealousy, love, hate—each of the fads, foibles and freaks of human nature have been painted by Cecil B. DeMille in productions like "Old Wives for New," "We Can't Have Everything" and "Don't Change Your Husband." But never before has he shown you the feelings of a woman face to face with a man she loves but who is, in her eyes, a despicable coward. The heat of her anger at the man she loves, yet hates, shocks you. The punishment she metes out to him makes you say to yourself, "Serves him right." But the sublimity of his sacrifice makes you halt judgment for a moment and then—

By the queerest twist of fate love conquers and the woman sees through the man's eyes—Come! It's too great a pleasure to miss.

After eighteen months of strenuous work for Uncle Sam, **Clarence Wolke** at last has been permitted to return home. For the past year the government has relied upon him in the overhauling and repair of Liberty airplane motors. Stationed at the largest motor repair shop in France, Clarence turned out his work with a speed and exactness that surprised the experts.

Although always a mechanic, Clarence has gained such valuable experience abroad that he would not part with it for thousands of dollars. And now that he is back you will have the rare opportunity of his services for your own motor troubles. We are fortunate enough to have him stationed with us and you could not find a more convenient place to leave your car while having it overhauled. ## Diamond "ALL BLACK" CORD TIRES

DIAMOND "All Black" Cord Tires are elegant equipment for the finest cars. But their real bid for your consideration is because of the money they can save you.

Their construction gives you a tire of big mileage under severe conditions. It cuts gasoline bills, relieves your motors, coasts farther and climbs hills easier.

With a slightly higher investment at the start, they finish by saving you a substantial sum on tire and car upkeep. Let us show them to you.

deer bill:  
I see in our daily papers that we get every day some days that the city council and some of our citizens are in favor of issuing bonds to pay of the debts the city owes. now that might be a good scheme but what I want to know is how in sam hill there goin to git the money to pay of those bonds. I know how it could be done very easy. just issue bonds in series, say A, B, C, etc., when serious "a" is due, issue serious "B" to pay of "a" and so on—I may be related to Andy Gump but it looks to me like this—some day we are goin to have a cracker jack water system—why not issue bonds to get it quick, move the city light plant to the dam, make it larger, sell water and electricity, and if properly managed together they would not only get the city out of the hole but I believe in time would make enough money to reduce taxes.  
Yours truly, JACK.  
P. S.: They could add an ice plant to it very easy, and say bill, they sell ice in this town at 60c a hundred and bill how much do you think it costs to make a ton of ice. make some inquiries from some one who knows and won't lie about it and you will be surprised.

## Buy Diamonds

That diamonds are the one article of adornment which never become worn nor out of style—Never depreciate in looks nor value, but on the contrary constantly increase in value to their fortunate owners, is too well known a fact to comment further upon.

**Order Electricians Back**  
Springfield, Ill., Aug. 2.—Electrical workers who went on strike yesterday and today with railway shopmen have been ordered back to work and some of them have returned to their jobs, particularly in Chicago, according to Charles P. Ford, secretary of the International Brotherhood of Electrical Workers, who said the walkout of electrical workers was unsanctioned by the union.  
About 3400 members of the craft had responded to the strike call of minor officials, according to reports received here. The entire enrollment of electrical workers affiliated with railroad branches, it was said, is about 33,000.  
Seventy five machinists and machinists' helpers, comprising the entire force at the Wabash repair shops here, went on strike this morning in support of the general walkout.

**Bloomington Men Quit.**  
Bloomington, Ill., Aug. 2.—After an all-day session yesterday, a short conference this morning the federated committee of the Chicago & Alton shops voted to strike as a sequel to the demands for higher wages made several weeks ago. As a result sixteen hundred walked out at 9 o'clock this morning, including machinists, boiler-makers, steam-fitters, blacksmiths, electricians, car workers, coach carpenters, round house employees, yard laborers, painters, in fact all departments except the transportation and maintenance of way.

**TOM MOORE STAR IN RIALTO PLAY**  
Handsome and popular Tom Moore comes to the Rialto Monday and Tuesday in his newest Jeddyn photoplay success, "The City of Comrades," filmed from Basil King's great story which ran in The Saturday Evening Post. It was directed by Harry Beaumont, famous for his "Skinner" pictures and all the late Tom Moore productions.

"The City of Comrades" is an absorbing story of a serious nature and presents the star in what has proven the most complex role of his career. As Frank Melbury, once a rich and respected architect, but now a down-and-out common tramp, he has the opportunity to depict character development of a scope not often witnessed in the silent drama.

In the excellent cast which Jeddyn has provided are such stellar players as Seena Owen, a star in her own right; Mary Warren, Alice B. Francis, Otto Hoffman, Kate Lester, Robert Walker, Albert Roscoe and others.

**RETURNS FROM EAST.**

### KENTUCKY GOVERNOR GETS NOMINATION

LOUISVILLE, Ky., Aug. 2.—Governor James D. Black of Bourbonville, defeated Judge John D. Carroll of New Castle, for the Democratic gubernatorial nomination by approximately 15,000 votes in today's state-wide primary, in complete unofficial returns indicated tonight. Edwin P. Morrow of Somerset was unopposed on the Republican ticket.

In the eighth congressional district King Swope, returned soldier running on the Republican ticket, was elected over Judge Charles A. Hardin, Democrat, by a majority estimated at from 1,200 to 1,400. It was the first time a Republican candidate was victorious in that district.

**PASS PROTECTIVE TARIFF MEASURE**  
WASHINGTON, Aug. 2.—The house today passed the first protective tariff measure to be acted upon since the Republicans regained control of congress. The measure levies high duties on chemical glassware and apparatus. It now goes to the senate.

Duties of sixty per cent ad valorem are levied by the bill on laboratory glass and porcelain wares and on surgical and dental instruments.

The measure also repeals the duty free provisions for imports of these articles for use by government bureaus and educational institutions.

The measure was framed by Representative Barach, Republican, New Jersey.

**AYS BROCKHOUSE NOT BLAMEWORTHY**

Another Statement Made About Auto Accident Which Happened Sunday.

Some investigation of the E. V. Ody-Warren Brockhouse auto crash-up of last Sunday has brought to light some new evidence regarding the cause of the mishap according to a statement given to the Journal yesterday.

Misses Bayless and Blimling were with Mr. Brockhouse at Sunday afternoon state that he was driving slowly out of a field into the road when the acci-

dent happened. He was driving north, coming onto the road from the south side, and attempted to turn east, keeping well to the right hand side of the road. There is a double track on the highway at this particular point and as he started from the field young Brockhouse looked to the west to see if any cars or vehicles were approaching from that direction. He did not look to the east as cars coming from the east on the south side of the road would be on the wrong or left hand side and it is not common for drivers to use the left hand track in driving.

Seeing no one approach from the west he drove his car into the roadway and in turning to the east, it is stated, that he was struck by the Ford car belonging to and driven by E. V. Cody of Meredosia. The young ladies were riding in the front seat with Mr. Brockhouse and none of them were expecting the westbound car on that side of the road. All state that they were well on the south side or right hand track of the roadway.

O. T. Hamm of Concord was at the scene of the accident a few minutes after the cars collided and made an inspection of the tracks made by the two cars. He corroborates the statements made by the young ladies.

So far as can be ascertained there is no law on the statute books of the State of Illinois whereby it is unlawful for children under 16 years of age to drive or operate motor vehicles. This is understood by many to be the law, but just where such a law can be found is not known by several well known attorneys.

The Journal has written Secretary of State L. L. Emmerson regarding this point of law and his opinion will be published in an early issue of this paper.

## WOOD FARM SOLD AT AUCTION SATURDAY

Land on Vandalia Road Did Not Bring as High Price as Expected—Is Well Improved.

Land belonging to the estate of Mrs. Mary E. Wood was sold at the court house Saturday afternoon with C. M. Strawn, as auctioneer. One hundred and seventy six acres located on the Vandalia road a mile east of Nichols park brought \$285 an acre. The purchasers were Ernest Clark, Frank J. Garland and W. B. Rex-roat. Settlement for the land is to be made now with possession next March, and the purchasers assume the taxes, so that the total purchase price is practically \$300 an acre.

The land was first offered in two tracts. Seventy six acres south of the road and including the improvements were sold to A. A. Curry at \$327.50 per acre. Then Mr. Curry bought the north tract at \$245 an acre. This made an average price of approximately \$285 and the whole was then put up and started with an offer of \$284. This was soon raised by Mr. Clark's bid to \$285 and the sale was soon consummated.

The price will be satisfactory to Stuart Pierson, executor of the estate, was not as large as had been predicted. There was, however, quite a difference of opinion as to whether the new reservoir would be an advantage or disadvantage to the property. J. Marshall Miller is the attorney for the estate and before the sale began explained to the men assembled the terms on which the land was offered.

**THE BISHOPS' EMERALDS AT LUTTRELL'S MONDAY**

Captain Houghton Townley's strongly dramatic and emotional novel portraying high society life in England, "The Bishop's Emeralds," has been photoplayed by Virginia Pearson Photoplays, Inc., and will be presented at the Majestic theater tomorrow, Monday, for its initial showing in this city.

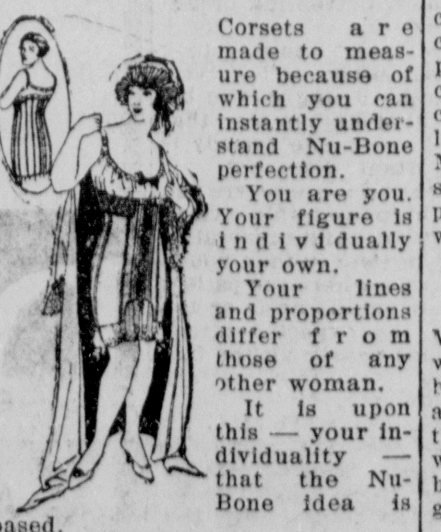

The photoplay version features Miss Virginia Pearson, who has been christened "The Velvet-Eyed Lady of the Screen," and gives her ample opportunity to display those talents for which she is justly famous on the American screen and stage. Her exceptional popularity in motion pictures will be largely increased by her splendid acting in this emotional creation wherein she fills the eye as a statuesque beauty and an enchanting sardonic symphony.

Miss Pearson splendidly achieves domination as a great emotional artist—consummate comedienne who fills the lighter phases with elegance and enduring charm and a tragedienne who rises to a tremendous climax with natural and entirely convincing expression. "The Bishop's Emeralds" is a photoplay which all motion picture fans should see.

**RETURNED SOLDIER TO LOCATE IN THIS CITY**

Henry Weir, who has but recently been discharged from the army after an extended period of overseas service, has arrived in the city and will probably locate here. The young man, whose home was formerly in Kansas City, was a member of Co. B, 521st engineers. He entered the service in the fall of 1917 and after a brief training period was sent overseas. With others in his unit he was engaged in building bridges and roads in the battle area. Following the signing of the armistice Weir visited Paris, Bordeaux and a number of other points of interest. He received his discharge at Camp Upton on July 6, having returned to the U. S. about two weeks before that date.

## PROPERTY OWNERS PAY FOR OIL SAYS MAGILL

County Commissioner Says Some People Have the Impression that County Is Using Money in City Oiling Fund.

Charles Magill, county commissioner, yesterday stated to a Journal reporter that some people have an erroneous impression that when the county oiler is used on city streets that money to pay the bill comes from the street oiling fund of the city.

This is not so, Mr. Magill says. While the city has levied a tax for oiling its unpaved streets it will not be available until next year. There has been considerable oiling done in the city but it has been done by individual property owners. In the case of South Sandy street the library board footed the bill.

The plan followed is for the ones wanting oiling done to pay 8 cents per gallon for the oil. This pays for the oil and enough surplus to cover the operation of the oiler. This plan is followed in all incorporated cities and towns in the county. When the city has available funds for oiling it will be given the same rate in case the officials desire to have the county machine do the work.

In the case of road districts the district pays half and the county pays half of the expense of oiling. As in the case of towns and cities the price charged is the same.

## Great Majestic Range Bargain Week

**Special Demonstration and Bargain Sale of Majestic Ranges**  
At Our Store—One Week Only

AUG. 4 TO 9TH INCLUSIVE  
To Be Truly Economical There Should be a Majestic in Your Kitchen  
**THE BARGAIN**  
And It's Well Worth Your While

Through special arrangements with the manufacturers, and during this Bargain Week only, a beautiful, useful and substantial set of Cooking Ware will be given with every Majestic Range sold. This ware is good ware (not cheap ware)—it's worth a lot to you. Come and see for yourself. **AND REMEMBER—** The price of a Majestic Range this week will not be increased, and there will hardly be a great reduction for years to come. If ever, but there may be an increase soon. **YOUR OPPORTUNITY IS HERE—** At our store—during our Majestic Bargain Week. It's your chance to get acquainted with real facts about ranges. We assure you it will be worth your while to investigate.

**Two New and Important Features**

**THE WONDERFUL UNSEEN RIVETING—** Yes, it's rivet-tight, just like the old Majestic, but the rivets clinch inside of nickled parts, leaving nickel smooth as glass, and there are no big, bulky bolt-heads on the inside. And, remember, rivets hold tight; bolts with only one or two threads holding are bound to work loose and cause no end of trouble. The Majestic is smooth inside and outside—it's a striking beauty—more than skin deep. **OH, JOY! TOP NEEDS NO BLACKING—** A smooth, highly polished cooking top, burnished blue, not only adds to the beauty of the Majestic, but absolutely eliminates the work, dirt and worry of trying to keep the range looking nice—just an occasional thin coat of paraffine retains its beautiful velvet blue color. If you haven't a MAJESTIC, avail yourself of this opportunity to get acquainted with this wonderful range—know the ins and outs of ranges.

## RACE RIOTS CREATE STIR IN ENGLAND

Principally Because of the Novelty of Such Occurrences—Exigencies of War Caused Importation of Many Negroes into England and Wales.

LONDON, August — [Correspondence of the Associated Press.]—Race riots in the northern part of England and Wales have created a stir throughout the country, principally because of the novelty of such occurrences in these islands.

Normally there are few negroes or aliens with colored skins to be seen in Great Britain, but the exigencies of war caused the importation of a large number of them to work on seaport docks and to recruit the ranks of manual laborers depleted by the call for fighting men. They were brought from various parts of the world, South Africa and the West Indies supplying the bulk of them. Many Arabs also were imported.

Registration of these colored men has been slow, with the consequence that many demobilized British soldiers had had what to them seemed the bitter experience of seeing strangers engaged at profitable employment while they,

themselves, looked in vain for work.

Rensentment over this state of affairs quickly developed into hatred when the soldiers observed that the strangers were trying to cultivate the acquaintance of white girls. A number of negroes took white wives.

A medical officer in the troubled district describes the situation as very serious both from a health and economic point of view, and asserts that 400,000 demobilized men are still without employment while negroes are employed. "Is this not a gross injustice?" he asks. "It is nothing less than iniquitous that the men who have fought for their country should find the jobs they need occupied by negroes."

## FORCES OF GERMAN OPERA HOUSE STRIKE

Force Retirement of Director-General, with Whom Employees Had Been in Conflict for Several Years.

BERLIN, — [Correspondence of The Associated Press.]—The principals, chorus and stage hands of the German Opera House at Charlottenburg, after a five days' strike, have forced the retirement of Otto Neumann Hofer, its director-general, with whom the employees had been in conflict for several years. The forces of the Opera house numbering five hundred, went on strike without warning.

Socialist members of the Charlottenburg town council espoused the cause of the strikers and demanded that the Board of Directors remove Herr Hofer. Realizing the futility of further resistance, he resigned. It was charged that he consistently opposed all social reforms in favor of the employees and was unyielding in his discipline.

The incident was one of the most sensational episodes in the history of German grand opera and the occurrence would have been impossible under the old political dispensation.

## ENGLISH OBJECT TO AMERICAN SLANG

London.—The English people like American photo-plays but they do not like the sub-titles when slang is used.

A well-known London critic has praised a new American film produced here but is rather severe on the captions. He could not understand what a "bonehead" meant, a "boob" was completely beyond him and "bring back the bacon" he considered impossible from any viewpoint.

Aside from the word "some" which has been taken up as an adjective by Londoners, Americans in England still have a monopoly on their slang.

The ceremony was performed in accordance with Christian rites.

The bride after graduating from the Japan Women's University, went to the United States where she studied at Bryn Mawr.

## MINISTER APPEALS FROM COURT FINDING

Seoul, Korea.—The Rev. Eugene Bell of Shelbyville, Kentucky has appealed from the judgment of the local court whereby he was fined the equivalent of \$25 for criminal carelessness in accidentally causing the death of his wife and a friend in an automobile accident. The judgment stipulated that in default of payment Mr. Bell must serve ten days imprisonment.

It is understood that the friends of Mr. Bell, who is engaged in missionary work, urged him to fight the case.

The accident occurred March 26 at an unguarded grade crossing when the Seoul express ran down the automobile which Mr. Bell was driving. Mrs. Bell and the Rev. Paul S. Crane of Yazoo City, Mississippi, were instantly killed and the Rev. Robert Knox of Galveston, Texas, a third passenger, was injured, finally losing an eye as a result.

## "Fat Back" Hog Feed

(Another Car Now Unloading)

Fat Back Hog Feed is a balanced ration. It eliminates doubt in feeding, it grows and fattens, yet it regulates. Its ration—that is protein in proportion to carbohydrates and fat X 2.25—is 1:3.7. **Fat Back Hog Feed provides the greatest possible amount of feeding value for the money.**

**THE GUARANTEED ANALYSIS**  
PROTEIN.....18% FIBRE...Not over 10%  
FAT.....4% Carbohydrates...58%  
Fat Back Hog Feed will give you better feeding results at less cost for some of the following reasons, viz: It is balanced; it is palatable—hogs keep on their feed—They are comfortable—Their ration is diversified. Lots of water is consumed—a cheap source of weight. Constipation is stopped. Intestinal and stomach worms are largely eliminated as also is cannibalism, chicken eating and rooting. Bone building materials are sufficient in proper amounts to stand shipping of hundreds of miles—cripples and weak hogs do not bring average market prices. The total amount of feed consumed is less when fed alone or with vegetable feeds because the digestible nutrients are greatly increased. Fat Back costs less than any other high class hog feed. Isn't that important?

# Ladies' 1919 Fall Styles Varied

Hand Embroidered Suits  
Accordion Pleated Skirts  
Fur Trimmed Dolman Coats  
Jersey Silk Dresses

## Says "Dame Fashion"

Greater varieties and more extensive selections for ladies' suits, dresses and wraps, will be afforded this coming Fall Season than in many years past, according to our Mr. Green who has returned from a ten day visit to New York and Chicago.

According to Dame Fashion's strongest mandate fine hand embroidery will play a leading part, skirts will continue narrow and coats will be a trifle longer.

The suit materials most favored will be broadcloths, woolens and tricelines, while the jersey silk will be the most favored dress material.

Semi-tailored suits, in straight line effects will enjoy a great popularity. The better suits will carry hand embroidered trimmings and braidings.

Dolman coats, fur trimmed, will be much sought after, the furs used this fall in all trimmings being

the darker lines, there being no call for the formerly popular greys.

The accordion pleated skirt, with Mexican belt, will be a favorite, as also will be the prettily embroidered skirt with short slit on one side.

The Fall Season now is but a short distance in the future and we suggest to the ladies of Jacksonville and vicinity an early call to see what we have to offer and talk over the question with us. This is particularly desirable where special designing is wanted.

Aside from being an expert cutter and fitter of ladies' suits and dresses, our Mr. Green is an adept in original designs and in carrying out the ideas of our patrons. This special work requires a great deal of time, hence our request that ladies give the matter of fall clothes early consideration.

## PRAISES AUSTRALIANS AND U. S. SOLDIERS

General Monash Describes Battles  
in Somme Sector When Aus-  
tralian and American Troops  
Fought Side by Side—Lasting  
Friendship Exists Between  
Armies.

LONDON, July 4.—(Correspondence of the Associated Press.)—Australian and American soldiers are "full blood brothers" in the opinion of Lieut. Gen. Sir John Monash, commander in chief of the Australian forces in the war, because the Americans were never placed in any position, nor called upon to perform any duty, when, as the general expressed it in an Independence Day speech here tonight, they did not "deliver the goods."

Gen. Monash said he first reached this conclusion in the early dawn of the Fourth of July, 1918, when for the first time, Australian troops, fighting side by side with the Americans in the Somme sector won the battle of Hamel and gave to the allied arms the first success they had achieved since the Germans began their memorable advance on March 21.

"This battle was the turning point of the war," said Gen. Monash. "It was a brilliant and unqualified success, and its effect upon the morale, both of the enemy and of our own men, was electric and startling. It became the model of all subsequent achievements in France, and it paved the way for the great counter offensive in August."

The American troops engaged, the general said, were 1,000 men from the 33d division, commanded

by Gen. John Bell. The 33d division was undergoing training. Gen. Monash said he had asked and obtained permission to employ 1,000 of the Americans in the battle of Hamel, but on the eve of the battle the permission was withdrawn.

"I passed a strenuous and exciting period of two hours," continued Gen. Monash. "So far as I could learn the order originated in some misunderstanding at American general headquarters as to the state of preparedness for battle of this division."

"I could not afford to have my battle plans ruined at the last moment by the withdrawal of a large fraction of my assaulting infantry, so I went to my army commander and delivered an ultimatum. If the Americans were not allowed to remain in the order of battle, then the battle in the morning would be off. Unless a decision was given by 6 o'clock that night the battle would go on without the Americans in it as planned. We managed to intercept the commander in chief and he gave the order, 'Carry on.'"

"Those 1,000 Americans covered themselves with glory, and I can pay them no greater compliment than by saying that from that day on our Australian veterans took them to their hearts as full blood brothers."

Gen. Monash declared that the 131st American regiment of the 33d division, in company with the 13th Australian brigade, "fought a most gallant and successful series of actions which resulted in the capture of Chilly Spur" when the great counter offensive was launched by Australians and Canadians in the Somme sector on Aug. 8, 1918. "This," he said, "made secure my left flank thereby enabling me to get astride of the valley of the Somme and hunt the enemy clean out of it for twenty miles."

Gen. Monash had under his command in the closing days of the war the whole Second American army corps, more than 60,000 men of the 27th and 30th American divisions. This army, he said, overthrew the Hindenberg defense system at its "most strongly defended point." The share of the American divisions in these operations was characterized by Gen. Monash as "probably the greatest single American feat of arms achieved in the whole war." The operations were completed on Oct. 5, he said, and it was on that night that "the Germans threw up the sponge and declared their willingness to make peace on our own terms."

"I have been asked over and over again to express my opinion of the American troops," Gen. Monash continued. "I am not going to do so here and now. I am only going to say in your own expressive vernacular that at all times and in every place where I have used them, the American troops 'delivered the goods.'"

"You may well believe that this close association in war of such large bodies of Australians and Americans has erected a very real and lasting friendship between our two democracies. The foundations of that friendship had already been laid many years before by the visit of the American battle fleet to Australia."

"I can assure you that Australia attaches much importance to securing and maintaining the friendship of America. We look upon the United States as our big brother in the Pacific, and if any one of you has reflected on the problems of the Pacific, which are going to arise in the future, he will know what I mean by that observation."

## AMERICAN MOVIES POPULAR IN MEXICO

American Films Now More Favored Than European Pictures—U. S. Manufacturers to Expand Their Field.

Mexico City.—(Correspondence of The Associated Press.)—American moving picture films are increasing in popularity here. Until eighteen months ago European pictures were favored by the public which had acquired a taste for French and Italian productions. Of late, however, American manufacturers have put their products to the fore in the republic and their films are to be found in virtually all picture houses, in many of them displacing altogether the European films.

Evidence that the United States manufacturers intend to expand their field, here is the fact that within the past few weeks three of the leading companies have established offices in Mexico City and these in turn have started branches in Vera Cruz, Guadalajara, San Luis Potosi and Monterrey. Representatives of these firms assert that in a short time Mexico will receive film releases almost simultaneously with the United States. This will be an innovation for heretofore managers have been content to receive films many months old and of poor quality.

## BETTER CONDITIONS COMING IN BELGRADE

Belgrade, Serbia.—There are many evidences of bettering con-

ditions in Belgrade. Belgrade University opened a short time ago. The American Red Cross is now erecting barracks to house the students during the summer.

In the spirit of the people there is a marked change for the better in the last few months. Social gatherings are more frequent, and a few moving picture theatres are in operation.

Shops in the city are gradually re-filling with stocks. Prices are high. Reports from the interior indicate a large grain harvest, with a possible surplus for export in south Serbia. These reports have had an encouraging effect on life in the capital.

The opening of heavy fighting on the Ufa front brought many wounded soldiers to the already burdened Russian military hospitals. The Red Cross sent to Cheliabinsk, Dr. Henry W. Newman.

Cheliabinsk promises to be an important station for American Red Cross work this summer, as it is expected that the fighting will

be particularly heavy in the district fronting it.

### BEN OWEN RESIGNS AS CHEF AT BATZ CAFE

Well Known Chief Tenders Resignation—Will Embark in Business.

Ben F. Owen, for the past five years chef at the Batz cafe, has tendered his resignation to take effect Saturday, August 9. Prior to coming here he was for five years with John Steiler in Virginia.

During this stay at the Batz cafe Mr. Owen has become known as one of the best chefs in the city. He has been affable in his dealings with local citizens and has made many friends.

About August 12 Mr. Owen will embark in business for himself. He has leased the room at 208 South Main street now occupied by Alonzo Smith and will open a

lunch room and short order place. It will be known as "Ben's Place." With his wide acquaintance and his knowledge of the business Mr. Owen should be successful in his new venture.

### C. P. & ST. L. SHOPMEN QUIT WORK SATURDAY

Men Walk Out to Impress on Government the Necessity of Reducing High Living Cost—Walkout is Nation Wide.

Saturday at noon the entire force at the C. P. & St. L. shops in this city walked out. The walkout was the culmination of events that have been coming on for several months.

Orders for the walkout came from headquarters of Federation No. 1, Railroad Employees of Chicago. This division comprises 62 roads and from reports received from different parts of the country the walkout is general.

The C. P. & St. L. and Alton have been operating as one road since being taken over by the government. The walkout is general on the Alton and while the men in the C. P. & St. L. shops at Springfield had not gone out at 3 o'clock, Frank McKenna of the local shops said that they probably went out later in the day.

Frank McKenna is general chairman of the boiler makers in the local shops. G. A. Smith is general chairman of the machinists and Clay Corbridge of the blacksmiths. The foremen also have a separate organization and they went out with the other men.

Placed Everything in Order. When the walkout order was received the men were called together and after a conference notified Superintendent Imgrund that they had decided to walkout.

The men placed everything in order and men are in charge of the engines and the watchman is on duty. Mr. Imgrund also was at the shops Saturday night assisting the men on duty there.

Speaking of the walkout last night Mr. McKenna and Mr. Smith both said that there was the friendliest of feeling toward the railway officials. The men, while they went out, would look after the property of the road and defend it from any damage just as zealously as they were all at work.

According to these men, the walkout is brought in by action on the part of the railroad administration. "Last spring," said Mr. McKenna, "a conference was asked with Director General Hines relative to taking some steps to an adjustment that would lead to normal conditions."

"Nothing has resulted but the cost of living has steadily advanced. The men have come to the conclusion that it is useless to increase wages because if that is done the cost of necessities immediately advances to more than the wage increase."

Want Immediate Action. "This walkout is nation-wide in its scope and is for the purpose of impressing upon the government that radical action is necessary to prevent an upheaval throughout the country."

"It is the purpose of this move on the part of the employees to get immediate action for the reduction of foodstuffs and other necessities of life. This is what the men are asking and believe it is the true solution of present conditions rather than wage increases."

"Down in Washington they are discussing the league of nations and the peace treaty. While they are doing this unrest continues to increase throughout the country. What we want is that they give their attention to something that is of the most vital importance to the entire country at this time."

Both McKenna and Smith seemed to be of the opinion that the situation would work out satisfactorily. They believed that some temporary action would be taken that would be satisfactory to the men and that perhaps work would be resumed the fore part of the week.

### RESIDENCE PROPERTY SOLD

Another property sale was recorded yesterday. H. L. Caldwell having sold his North Prairie street residence to E. E. Grassly. The sale was made by Erixon & Dewese. Possession is to be given September 1 and Mr. and Mrs. Grassly will have a handsome home. The house is exceptionally well built with hard wood floors throughout and all modern improvements. Mr. Caldwell has purchased from Miss Dowd the property at 300 West North street for possession Sept. 1. This is an excellent house on one of the best residence streets in the city. It is now occupied by Earl Vasconcellos and family.

### FARMERS WILL HOLD MEETING AT ARNOLD

Limestone Spreading and Multiple Hitch Demonstrations Will be Given—More Limestone Means Better Clover Crops.

Announcement has already been made of a multiple hitch and limestone spreading demonstration to be given next Saturday by the Farmers Club at Arnold station.

At 1:30 o'clock there will be an inspection of a clover field and an address made by Prof. J. H. Roadhimer of the College of Agriculture. At 2 o'clock the limestone spreading demonstration will be given and at 2:30 o'clock the multiple hitch demonstration on the J. W. Arnold farm. This will be given under direction of the Wayne Dismore, secretary of the Percheron Society of America and J. L. Edmonds, professor of horse husbandry of the College of Agriculture.

Special attention is called to the demonstration of limestone spreading as there are many farmers who in the past have had difficulty in growing clover, even on land of the best quality. The whole process is one that farmers are certain to find valuable.

### LOCAL TOURNAMENT DRAWS BIG FIELD

Many Golfers Match Skill on Nichols Park Links Friday and Saturday—Play-Off for Fourth and Fifth Place This Will be Played This Afternoon.

Much interest was displayed in the Sweepstakes Golf Tournament played at Nichols park Friday afternoon and yesterday. There were a large number of contestants and the competition proved to be a very close one. Leo Johnson, carrying a handicap of 22 points won first place among Class A players, while Wilbur Hauck, with a handicap of 52, carried off first honors among Class B contestants.

Hauck is a novice at the game and, it is said, that in entering the tournament he borrowed some clubs of Mrs. F. D. Burgess who has been tutoring him for the event. He has never played more than a couple or three rounds prior to the tournament.

Lloyd Read, another beginner in golf, turned in a net score of 63, capturing fourth place in the Class B.

There were six prizes awarded in each class. The first three prizes in each event were 50, 30, and 20 per cent of the entrance fees. The fourth prize in each class was a golf stick donated by Myers Bros. For the fifth and sixth prizes Brennan's Hardware company gave golf balls.

The success of the tournament was due to the work of J. Bart Johnson, Terrence Brennan, F. D. Burgess and a number of other golf enthusiasts who cooperated with them.

In the Class A event J. E. Scott and J. Flynn tied yesterday for fourth and fifth places, each turning in a net score of 68. These players will meet at the park this afternoon at 1:30 o'clock at which time the play-off will be staged. They will carry the same handicaps as in the play Saturday afternoon and the result will be watched with interest by many, as both players are playing a good game and will fight every inch of the way around the course.

The scores made by the contestants during the tournament are given as follows:

Mr. and Mrs. Dell Ham and three children of Dallas City have been visiting Mr. Ham's mother, Mrs. Alice Merriss.

Mrs. Lave Arnold returned.

Professor H. Strauss, M. D., of the local Charity Hospital, says, "The cause for an attack of gout, rheumatism, is supplied by the increase of acid in the blood serum, the result of various causes, the most frequent of which is renal. Before an attack, or sometimes from headache, nervous twinges of pain here and there." When your kidneys feel like lumps, when the back hurts or the urine cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; when you suffer with headache, or dizziness, nervous spell, stomach, or you have rheumatism or lumbago, gout, sciatica, or a weather is bad, do not neglect it, but try simple means. Take eight glasses of water during the day, then obtain at your nearest drug store (Anuria) (anti-uric acid). This is the discovery of Dr. Pierce (Anuria) (anti-uric acid). It is an antidote for this uric acid and dissolves uric acid in the blood, so that it can be eliminated through the joints, muscles, and dissolve the poisonous uric acid. It will stamp out toxins, and sends to Dr. Pierce's Invalid for trial package.

One of our ambitions is to have people feel at home in this store. We try to be friendly and helpful; not anxious to sell something, but eager and willing to be of service. You're welcome to our time and attention whether you buy or not.

There comes a day when your boy grows up; he's a young man in height before he is in years; first long trousers time.

Hart Schaffner & Marx  
Prep styles  
for very young men

He isn't likely, however, to be as fully developed as the average young man; his figure is a little youthful; a little immature; young men's models won't quite do.

Hart Schaffner & Marx make clothes for these boys; they combine youth and manliness with lively style; all-wool fabrics and the best of tailoring. The suits are here in wide selections; just what boys want; we will be glad to show you.

## Your Velie is a Business Investment

It is a profit-payer, in the time it saves you in getting around, in the important hours and days it gains for you in rush errands or busy seasons. It is a profit-payer in the value it maintains as a piece of merchandise. Use your Velie long and constantly—and its re-sale value will still be so high that you make a big profit considering what the car has done for you. Proved in the exceptionally high prices used Velie cars bring—when they can be bought at all.

### This is Due to the Famous Velie Values

The powerful Velie-Continental motor—Timken axles front and rear—multiple dry disc clutch—automatic ignition—push button starter—are simply indications of the kind of specifications used in the Velie all thru. And the deep-plaited, genuine leather upholstery and long underslung springs—there is comfort!

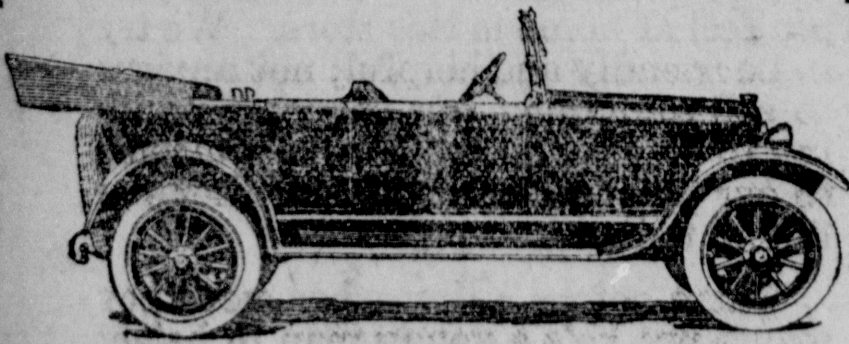

Beauty is revealed in every line and in the Velie's lasting, mirror finish.

There is not another car in the Velie's price class that shows such a combination. No better car is built at any price. Nine body styles—Touring Cars, Sport Model, Sedan, 4-passenger Roadster, Coupe, etc.

## Tobacco Hardens the Arteries, Overtaxes the Heart and Shortens Life

Says Dr. Connor, Who Suggests a Simple Test to Find if it is Hurting You. Can You Stand It?

New York—Dr. Connor, formerly of Johns Hopkins hospital, says: Hundreds of thousands of men who smoke and chew and who believe themselves healthy are suffering from progressive organic ailments. They would never have been afflicted had it not been for the use of tobacco and most of them would soon get well if they would only stop the use of tobacco.

The best known habit-forming principal of tobacco is nicotine, but the most deadly and demoralizing is furfural. Both are deadly poisons, which, when absorbed by the system slowly but surely, affect the nerves, membranes, tissues, vital organs and vitals of the body.

The harmful effect of tobacco varies and depends on circumstances and the individual. In some it causes general debility, others catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, cowardice and fear, mental confusion, etc. In others it causes heart disease, bronchial troubles, hardening of the arteries, palpitation of the heart, tuberculosis, blindness, cancer and the complications known as tobacco poisoning.

Use tobacco in any form you find it harmful effects by the following simple test: Take a full page from a book, comes muffled, hoarse and you must frequently cough, the chances are you are affected by catarrh beginning of very serious trouble. Next, in the morning, your usual Adv.

smoke, walk up three flights of stairs at a regular pace, then stop. If you find that you are out of breath, if your heart beat is forced, trembling or irregular, you may be the victim of a functional or organic heart trouble. If you feel that you must smoke or chew to quiet your nerves, you are a slave to the tobacco habit and are slowly poisoning yourself with the insidious deadly drugs, nicotine and furfural. In either case, you have just two alternatives—keep on with your self-poisoning process regardless of the danger, and suffer the consequences, or rid yourself of the habit and escape the dangers.

You can overcome the craving and stop the tobacco habit in a very short time by using the following inexpensive formula. Go to any drug store and ask for Nicotol. Take one tablet after each meal and in a comparative short time you will have no desire for tobacco. The craving will have left you. With the nicotine poisoning out of your system your general health will quickly improve.

Note—When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; a way ahead of anything we have ever sold before. We are authorized by the manufacturer to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including Armstrong's Drug Store, on Adams.

## REDS STRENGTHEN HOLD ON LEAD

Defeat Giants 6 to 0—Sallee Pitches One of His Best Games, Allowing New York Only Five Hits.

Cincinnati, O., Aug. 2.—The Cincinnati team strengthened its hold on first place by defeating New York again today 6 to 0. Sallee pitched one of his best games, allowing the Giants only five hits.

It was Knights of Columbus Day and before the game, Governor Cox of Ohio, stepped up to the home plate and presented Manager Moran, of the Cincinnati club, who is a member of the order, with a costly diamond stud watch and fob, and an order on a local jewelry house for Mrs. Moran. The score:

## DESCRIBES ERUPTION OF VOLCANO IN JAVA

Eye Witness Describes Awful Scenes Which Prevailed When Volcano of Kalut Burst Into Eruption May 20.—5,100 Persons Reported Killed.

Singapore, iVa Tokio.—[Correspondence of The Associated Press].—The awful scenes which prevailed when the volcano of Kalut in Java burst into eruption on May 20, destroyed 26 villages and caused a loss of life estimated by some at 50,000, are vividly described by Miss E. W. Cranen, who has arrived here from Sourabaya.

A river of boiling mud and lava which over whelmed the village of Blitar where Miss Cranen was staying, was ten miles wide and four feet deep.

The first symptoms of the coming eruption, Miss Cranen said, were sounds like thunder and vivid flashes in the sky. Enormous boulders were flung from the volcano into the low lands around it for immense distances. There was pitchy darkness owing to a rain of ashes.

Then came warning to the occupants of the hotel at Blitar that the river of lava and mud was approaching. "We were almost beside ourselves as to what to do to avoid a hideous end," she said. Twenty four of those staying at the hotel escaped death in the boiling mud by fleeing aboard a motor car driven by the wife of the Assistant Resident Commissioner.

According to Miss Cranen the river of mud ran for three hours and wrought fearful damage to life and property. It covered the railway station, buried the locomotives and cars and destroyed virtually every house in Blitar, Wlingi and Srengat.

Mr. Boekholt managed to rescue his wife and some of his children, but owing to the velocity of the mud river was unable to save two of his little ones who perished before his eyes. One European, while in bed in his house, was carried away and deposited miles distant.

A Sourabaya paper which places the total loss of life at 50,000 says that 15 Europeans perished, and that after the volcano subsided the arms and legs of the victims were seen protruding thru the mud all over Kediri district in the vicinity of Kalut. Many thousands of persons are reported missing.

It is learned that three lava streams flowed from the volcano all taking the same course as in the eruption of 1901. One of these destroyed Blitar. Government geologists who ascended to the crater of Kalut after the eruption found it empty.

The Dutch Governor of the de-

vastated district reported that 5,100 persons were killed in the eruption of Kalut.

## REDUCE PAYROLL OF THE UNEMPLOYED

English Government Now Making Payments to About 750,000, a Reduction of 500,000 Names Since May.

LONDON.—[Correspondence of The Associated Press].—The payroll of the unemployed to whom the government is making a weekly dole has been reduced by about 500,000 names since May last when the government drew its purse strings tighter. From November to May the weekly benefits were paid to about 1,250,000 persons. Payments are now being made to about 750,000.

At first the amount paid the men out of work was \$6 a week, \$5 to women, \$3 to boys and \$2.50 to girls.

There were smaller grants for children, so that it was possible for an unskilled workman with four children to draw nearly \$11 a week, which was more than some could earn at work.

When the joyful news of this pay for doing nothing spread many tired workers immediately resigned their jobs and came upon the government, according to testimony in the courts, while others who never had done nor wished to do any work found themselves in the happy position of gathering unexpected manna from the heavens.

Instructions from the government to disbursing officials were to lean toward the side of generosity and this policy appears to have prevailed.

## HOUSING OF SOLDIERS COMPLICATED SYSTEM

London.—Government projects for building houses for workingmen and providing land for soldiers are moving slowly.

The housing plan is a complicated system under which the local authorities are to do the building and the national treasury to share the expense.

The value of the land and the cost of building materials are more than double those which prevailed before the war.

## MEASURE WOULD LIMIT PRICES

WASHINGTON, Aug. 1.—Price for necessities would be limited to the amounts charged Nov. 11, 1918, under a bill introduced today by Representative Huddleston, Democrat, Alabama. The president would be directed to appoint a war trade commission of five members to fix maximum sale, use and service prices for all necessities. Food, clothing, foodstuffs, medicines, furniture, building materials, tools, iron, steel, coal, gas, electricity, transportation and rents would be defined as necessities. The board which would continue operations for five years would adopt regulations for the distribution, transportation, sale, handling and storage of the necessities and to issue licenses for dealers to conduct business. Dealers would be required to mark the original cost package.

An appropriation of \$1,000,000 to carry out the act was proposed by the resolution which was referred to the judiciary committee.

## 60,000 Earlier Hudsons Foretold This Super-Six

Qualities That Men Had Predicted Would Make it the Unrivalled Car Have Now Been Realized

Everyone knows Hudson Super-Six history. It is written in the official records of some of the greatest endurance and speed tests known. It is told in nearly every locality by those who know how performance reveals quality.

But its greatest fame lies in the appreciation that thousands of owners hold for it.

You have heard Hudson owners predict its ultimate achievements. They have praised their cars and yet always have said that a greater Super-Six was inevitable.

Hudson Evolution  
Came Naturally

Let the reader review the past four years of motor history. The Super-Six was a distinct step ahead in motor designing. It added 72% to power without increased weight or complications.

Its principal was new. Vibration had been minimized. Performance has been increased.

That first Super-Six revealed a development not possible to any other type. It foretold the Hudson we now offer.

Each Year Marked  
Some Improvement

New Hudson models are not mere changes in body design. Such attractiveness is not overlooked. The main effort has been to increase endurance, to free it from the faults common to all cars.

Easier starting, more reliability of performance, freedom from mechanical attention, a safer, more comfortable and more economical car has been the aim.

Each added quality has been proved in a thousand ways. The speedway, road racing, mountain climbing, trans-continental touring at express speed, did their part. Spectacular records were established, but long after details of the world's fastest mile for a stock chassis, or the double run from San Francisco to New York and return, had been forgotten by the public, Hudson engineers continued to profit by the lessons learned in those tests. Subsequent models showed the result.

Such a car would have been impossible without that experience. We did not enter racing to win prizes but to learn how to build a better car.

Sales Lead All  
Fine Cars

Like the constant champion it proved to be on the race track, Hudson sales exceed those of any other fine car.

More Hudson's are built now than ever before. A month's output now is as great as was the first four month's production of the first Super-Six.

Sales demand, though has always been ahead of the supply. That shows how motordom regards the Super-Six.

When will you make it your choice?

## Tobacco Hardens the Arteries, Overtaxes the Heart and Shortens Life

Says Dr. Connor, Who Suggests a Simple Test to Find if it is Hurting You. Can You Stand It?

New York.—Dr. Connor, formerly of Johns Hopkins hospital, says: Hundreds of thousands of men who smoke and chew and who believe themselves healthy are suffering from progressive organic ailments. They would never have been afflicted had it not been for the use of tobacco and most of them would soon get well if they would only stop the use of tobacco.

The best known habit forming principal of tobacco is nicotine, but the most deadly and demoralizing is furfural. Both are deadly poisons, which, when absorbed by the system slowly, but surely, affect the nerves, membranes, tissues, vital organs and vitality of the body.

The harmful effect of tobacco varies and depends on circumstances and the individual. In some it causes general debility, others catarrh of the throat, indigestion, constipation, loss of memory, lack of will power, cowardice and fear, mental confusion, etc. In others it causes heart disease, bronchitis, troubles, hardening of the arteries, palpitation of the heart, tuberculosis, blindness, cancer and the common affliction known as tobacco heart.

If you use tobacco in any form you easily detect its harmful effects by making the following simple tests: Read aloud a full page from a book. Your voice becomes muffled, hoarse and indistinct. And you must frequently clear your throat. The chances are that your throat is affected by catarrh and it may be the beginning of very serious catarrhal trouble. Next, in the morning, before taking your usual

smoke, walk up three flights of stairs at a regular pace, then stop. If you find that you are out of breath, if your heart beat is forced, trembling or irregular, you may be the victim of a functional or organic heart trouble. If you feel that you must smoke or chew to quiet your nerves, you are a slave to the tobacco habit and are slowly poisoning yourself with the insidious deadly drugs, nicotine and furfural. In either case, you have just two alternatives—keep on with your self-poisoning process regardless of the dangers, and suffer the consequences, or rid yourself of the habit and escape the dangers.

You can overcome the craving and stop the tobacco habit in a very short time by using the following inexpensive formula: Go to any drug store and ask for Nicotol. Take one tablet after each meal and in a comparatively short time you will have no desire for tobacco. The craving will have left you. With the nicotine poisoning out of your system your general health will quickly improve.

Note.—When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturer to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit."

Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including Armstrong's Drug Store. Adv.

## REDS STRENGTHEN HOLD ON LEAD

Defeat Giants 6 to 0—Sallee Pitches One of His Best Games, Allowing New York Only Five Hits.

Cincinnati, O., Aug. 2.—The Cincinnati team strengthened its hold on first place by defeating New York again today 6 to 0. Sallee pitched one of his best games, allowing the Giants only five hits.

It was Knights of Columbus Day and before the game, Governor Cox of Ohio, stepped up to the home plate and presented Manager Moran, of the Cincinnati club, who is a member of the order, with a costly diamond studded watch and fob, and an order on a local jewelry house for Mrs. Moran. The score:

## DESCRIBES ERUPTION OF VOLCANO IN JAVA

Eye Witness Describes Awful Scenes Which Prevailed When Volcano of Kalut Burst Into Eruption May 20.—5,100 Persons Reported Killed.

Singapore, 14a Tokio.—[Correspondence of The Associated Press.]—The awful scenes which prevailed when the volcano of Kalut in Java burst into eruption on May 20, destroyed 26 villages and caused a loss of life estimated by some at 50,000, are vividly described by Miss E. W. Cranen, who has arrived here from Sourabaya.

A river of boiling mud and lava which over whelmed the village of Bilhar where Miss Cranen was staying, was ten miles wide and four feet deep.

The first symptoms of the coming eruption, Miss Cranen said, were sounds like thunder and vivid flashes in the sky. Enormous boulders were flung from the volcano into the low lands around it for immense distances. There was pitchy darkness owing to a rain of ashes.

Then came warning to the occupants of the hotel at Bilhar that the river of lava and mud was approaching. "We were almost beside ourselves as to what to do to avoid a hideous end," she said. Twenty-four of those staying at the hotel escaped death in the boiling mud by fleeing aboard a motor car driven by the wife of the Assistant Resident Commissioner.

According to Miss Cranen the river of mud ran for three hours and wrought fearful damage to life and property. It covered the railway station, buried the locomotives and cars and destroyed virtually every house in Bilhar, Wiligi and Srengat.

Mr. Rockmont managed to rescue his wife and some of his children, but owing to the velocity of the mud river was unable to save two of his little ones who perished before his eyes. One European, while in bed in his house, was carried away and deposited miles distant.

A Sourabaya paper which places the total loss of life at 50,000 says that 15 Europeans perished, and that after the volcano subsided the arms and legs of the victims were seen protruding thru the mud all over Kediri district in the vicinity of Kalut. Many thousands of persons are reported missing.

It is learned that three lava streams flowed from the volcano all taking the same course as in the eruption of 1901. One of these destroyed Bilhar. Government geologists who ascended to the crater of Kalut after the eruption found it empty.

The Dutch Governor of the de-

vastated district reported that 5,100 persons were killed in the eruption of Kalut.

## REDUCE PAYROLL OF THE UNEMPLOYED

English Government Now Making Payments to About 750,000, a Reduction of 500,000 Names Since May.

LONDON. — [Correspondence of The Associated Press.]—The payroll of the unemployed to whom the government is making a weekly dole has been reduced by about 500,000 names since May last when the government drew its purse strings tighter. From November to May the weekly benefits were paid to about 1,250,000 persons. Payments are now being made to about 750,000.

At first the amount paid the men out of work was \$6 a week, \$5 to women, \$3 to boys and \$2.50 to girls.

There were smaller grants for children, so that it was possible for an unskilled workman with four children to draw nearly \$11 a week, which was more than some could earn at work.

When the joyful news of this pay for doing nothing spread many tired workers immediately resigned their jobs and came upon the government, according to testimony in the courts, while others who never had done nor wished to do any work found themselves in the happy position of gathering unexpected manna from the heavens.

Instructions from the government to disbursing officials were to lean toward the side of generosity and this policy appears to have prevailed.

## HOUSING OF SOLDIERS COMPLICATED SYSTEM

London.—Government projects for building houses for workingmen and providing land for soldiers are moving slowly.

The housing plan is a complicated system under which the local authorities are to do the building and the national treasury to share the expense.

The value of the land and the cost of building materials are more than double those which prevailed before the war.

## MEASURE WOULD LIMIT PRICES

WASHINGTON, Aug. 1.—Price for necessities would be limited to the amounts charged Nov. 11, 1918, under a bill introduced today by Representative Huddleston, Democrat, Alabama. The president would be directed to appoint a war trade commission of five members to fix maximum safe use and service prices for all necessities. Food, clothing, foodstuffs, medicines, furniture, building materials, tools, iron, steel, coal, gas, electricity, transportation and rents would be defined as necessities. The board which would continue operations for five years would adopt regulations for the distribution, transportation, sale, handling and storage of the necessities and to issue licenses for dealers to conduct business. Dealers would be required to mark the original cost package.

An appropriation of \$1,000,000 to carry out the act was proposed by the resolution which was referred to the judiciary committee.

## 60,000 Earlier Hudsons Foretold This Super-Six

Qualities That Men Had Predicted Would Make it the Unrivalled Car Have Now Been Realized

Everyone knows Hudson Super-Six history. It is written in the official records of some of the greatest endurance and speed tests known. It is told in nearly every locality by those who know how performance reveals quality.

But its greatest fame lies in the appreciation that thousands of owners hold for it.

You have heard Hudson owners predict its ultimate achievements. They have praised their cars and yet always have said that a greater Super-Six was inevitable.

Hudson Evolution  
Came Naturally

Let the reader review the past four years of motor history. The Super-Six was a distinct step ahead in motor designing. It added 72% to power without increased weight or complications.

Its principal was new. Vibration had been minimized. Performance has been increased.

That first Super-Six revealed a development not possible to any other type. It foretold the Hudson we now offer.

Each Year Marked  
Some Improvement

New Hudson models are not mere changes in body design. Such attractiveness is not overlooked. The main effort has been to increase endurance, to free it from the faults common to all cars.

Easier starting, more reliability of performance, freedom from mechanical attention, a safer, more comfortable and more economical car has been the aim.

Each added quality has been proved in a thousand ways. The speedway, road racing, mountain climbing, trans-continental touring at express speed, did their part. Spectacular records were established, but long after details of the world's fastest mile for a stock chassis, or the double run from San Francisco to New York and return, had been forgotten by the public, Hudson engineers continued to profit by the lessons learned in those tests. Subsequent models showed the result.

Such a car would have been impossible without that experience. We did not enter racing to win prizes but to learn how to build a better car.

Sales Lead All  
Fine Cars

Like the constant champion it proved to be on the race track, Hudson sales exceed those of any other fine car.

More Hudson's are built now than ever before. A month's output now is as great as was the first four month's production of the first Super-Six.

Sales demand, though has always been ahead of the supply. That shows how motordom regards the Super-Six.

When will you make it your choice?

## MERRIGAN'S

EDWARD J. ECK DEAD.

Friends in the city will regret to learn of the death of Edward J. Eck which occurred at St. John's Hospital in Springfield Friday. The deceased always lived in Springfield, but had many friends in Jacksonville. He is survived by his wife and six children. The funeral will be held Monday morning at 9 o'clock from St. Peters and St. Paul Church at Springfield.

## MAVERICKS

The night police force was compelled to lay off Friday night on account of illness.

If we can get a reporter's union organized we are going on a strike for a six hour day, full holiday Saturday and no Sunday morning paper. We'll bet that would create a howl among the other union men of the community.

When congress gets tired of talking about the peace treaty or the league of nations it passes some law creating a new investigating committee that never investigates anything and appropriates a couple of million dollars for committee expenses.

It is to laugh. Thomas Wilson in behalf of the packers wired President Wilson that the packers wished to aid in every way possible the high cost of living inquiry now being instituted.

If the price of hogs keeps on climbing we will not be surprised to see farmers with a lot of hogs on hand driving them in and putting them in some bank vault for safe keeping.

But Some of Them Marry. A statistician figures out that crazy men stay single.

My, but we have been paying a lot of money out for doctor bills. If everybody gets so healthy they won't need doctors what will all the doctors do? And, what will we do with all the money we have been giving to the doctors?

Over in Paris they have named a street in honor of five men. The name is Wiljofolempereoch avenue. But why wish that kind of a name even on a street.

Spiritualists are going to hold a convention in Clinton, Iowa today. That kind of spirits is about the only kind one can find in Iowa these days.

We see lots in the papers about people not being able to live on \$200 a month. We would like to try it some time and see if it is really as hard as some people say it is.

And speaking of the high cost of living, we often wonder how some people can afford to buy so much gasoline.

Hogs are selling around \$23 and, we might add, in the words of the poet, a hog by any other name would cost as much.

Armour and company are sending out a beautifully printed pamphlet telling the public what great benefactors the packers are to the people and how small the profits of the packers are. What

## Buy an Emerson!

The Fan with the  
5-Year Guarantee

EMERSONS are the only fans guaranteed five years by the manufacturer. And the guarantee is written—backed by a big responsible factory which has made electric fans for twenty years.

With your Emerson fan you will get a printed guarantee coupon carrying the number of your particular fan, your name and the date of purchase. A duplicate will be registered at the factory, identifying your 5-year guarantee.

At any time within five years the factory will repair or replace, without charge, any Emerson fan or part which proves in any way defective. We know this guarantee—we know the factory which makes it, and their reputation for fair treatment, liberal adjustments under this guarantee. That's why we sell Emersons.

Your Emerson is waiting for you, now! Come get it.

And we have also a full assortment of the Jewell and Eclipse Gas Stoves and Ranges—there's a size to suit.

## For Housewives Only

Better Cooking Demonstrations Daily

ARE you interested in improving your cooking? Do you want to know how you can save nearly half the time you now spend in the kitchen and conserve your strength?

Of course you do—all housewives are anxious to remove the drudgery of kitchen work and provide better meals. And these are the things we are demonstrating every day.

The "Lorain" Oven Heat Regulator brings all these benefits. That may sound too good to be true, so we urge you to come and see for yourself. Nothing like it has ever been within your reach before. It takes guesswork out of baking. It cooks a whole meal while you spend your time in enjoyments.

See "Lorain" at once. Come any hour of the day.

**TRI-CITY STRIKE TIES UP LINES**  
DAVENPORT, Ia., Aug. 2.—Employees of the Tri-City railway company early Saturday voted unanimously to strike. This action tied up street car transportation in Davenport, Ia., Rock Island, Ill., and Moline, Ill., and adjacent towns, and Muscatine, Ia., and the Davenport and Clinton and the Davenport and Muscatine inter-urban lines.

The company offered the men 60 cents an hour maximum wage, contingent on its getting a seven cent fare.

"We are not negotiating fares," said J. B. Lawson, international officer handling the affairs of the union men. "We are negotiating wages and cannot accept a contingent promise."

The company, according to present plans, will make no effort to run cars.

**STRIKE SEEMS TO HAVE FAILED**  
London, Aug. 1.—(By The Associated Press.)—Tonight indications seemed to point to the Metropolitan police having met with failure in their efforts to bring about a strike. There was no sign any where that more than a few hundred men had declined to take up their posts of duty. These men were promptly dismissed.

**ADVANCE MILK PRICE**  
St. Louis, Aug. 1.—An advance of one cent, bringing the retail price of milk to 15 cents a quart, was announced here today by distributors. Dealers attributed the advance to increases charged by producers.

**FIVE DIE IN BLAST**

## BLUFFS LAD RETURNS WITH FRENCH BRIDE

Sergt. John O'Brien Returns from France with Bride—Wedding Ceremony Was Impressive—Mrs. J. F. Likes Attacked by Dogs—Other News.

Bluffs, Aug. 1.—Sergeant John O'Brien has just returned from from overseas, bringing with him his beautiful French bride.

One of the largest weddings ever held at Mussidan, Dordogne, France, was celebrated at the little French church of that city, when Mademoiselle Jeanne Self-farges became the bride of Sergeant John O'Brien. The words which united the happy couple were spoken by Father DeLaval-ette at 10:30 o'clock a. m. July 1st, and immediately afterward the civil ceremony was performed according to the laws of France. Immediately after the second ceremony members of the bridal party were driven to the White Cross hotel, where an elegant wedding dinner was served. It is a pretty custom in that country to strew the bridal path with flowers and in this instance the path was strewn for a distance of two miles which shows the high esteem in which she was held by her large circle of friends in the city of her birth. After a honeymoon journey in various parts of France they went to Paris where they spent four days and attended the celebration of one of the national holidays, July 14th.

The bride is the youngest daughter of Mr. and Mrs. Pierre Defarges, highly respected citizens of Mussidan while the groom is the elder son of Mr. and Mrs. Thomas O'Brien, prominent citizens of Bluffs and was born and reared in this place, where he has a large circle of friends. He is a graduate of the Illinois College of Jacksonville where he studied the French language, while pursuing his college course. He speaks French fluently and readily translates the English for his little bride. The many friends of John certainly extend their heartiest congratulations and wish them much happiness, while traveling life's journey.

Mrs. G. W. Sisson is invoicing her stock of goods with a view to closing out same as she must take a much needed rest from business cares.

Jack Six, proprietor of the Six Meat Market, has closed his shop temporarily from lack of help. His assistant, Alva Baird, decided that he had more work than he could handle alone, and decided to quit the job for a time at least.

The first of the week Mrs. J. E. Likes was attacked by three vicious dogs belonging to Dale Thompson. She was badly bitten about the lower limbs, but as the dogs were chained she escaped fatal injuries. Dr. C. Evans Jr. sawed the wounds and Mrs. Likes is able to be out again. From the numerous complaints made, the dog nuisance is getting to be a serious one. The higher taxes did not bring much relief.

### FORD CARS!

I am offering several used Ford cars, at bargain prices. Must be sold quick!

**BRYANT'S GARAGE**

"Everything for a Ford"

### MORGAN

We were slightly in error in our report last week when we said the wheat was not yielding well. At that time they had only threshed the bearded wheat. The smooth headed wheat yielded well and farmers were well pleased.

This vicinity has not yet been favored with any rain and corn is beginning to suffer for lack of moisture.

W. W. Holiday, manager of the Illinois Telephone Co. of Jacksonville, visited his sister, Mrs. Charles Williams last Thursday. Mr. and Mrs. Hobart Dixon visited at the home of Herman DeGroot last Sunday.

Mr. and Mrs. Otto Funk of Louisville, Ky., and Mrs. Ada Kunk of Chapin were visitors here last Thursday.

Mr. and Mrs. Clyde Williams and family were Bluffs visitors last Sunday.

Miss Ruth Hutchins made her regular trip to Concord to give music lessons. She expects to give a recital there in the near future.

Thomas Paschall and sister, Mrs. Rachel Peters and Mr. and Mrs. Wilbur Williams and daughter of Markham spent Sunday with Mr. and Mrs. C. E. Williams and family.

John Taylor has had blood poisoning in his hand for several days, but is much improved at this writing.

### C. M. CANTRELL IS

A RETURNED SOLDIER  
C. M. Cantrell, son of Rev. C. G. Cantrell of Chapin, is one of the most recent Morgan county men to return from overseas service. The young man enlisted in September, 1917, at Des Moines, Iowa, and in August, 1918, was sent overseas as a member of a sanitary squad in the 88th division. He saw service in France in a number of different units, returning to this country early in July. He received his discharge at Camp Dodge on July 17.

### SAW LARGE FISH

S. M. Metcalf while visiting in Franklin Saturday had the opportunity to see one of the largest cat fish ever caught in the Burlington lake at Franklin. The fish measured 35 inches from head to tail, and weighed 19 3-4 pounds.

### LEFT FOR NORTH

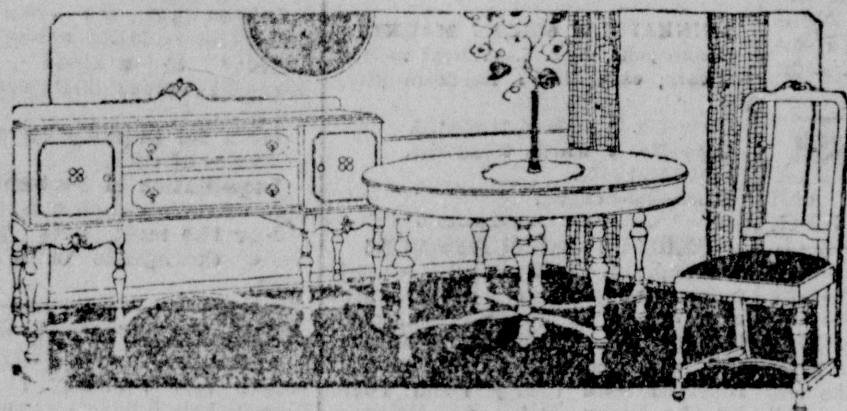

Mrs. R. J. Young and Misses Louisa T. and Jane Young left Saturday forenoon for Minneapolis, Minn., where they will make an extended visit with Mr. and Mrs. Percy Jenkinson.
